MEMORANDUM FOR: Deputy Director (Support)

SUBJECT : Medical Staff Functional Report, FY 1960

As requested, attached is a report of Medical Staff functions and the number of personnel and funds attributable to each. While these functions are arranged generally in order of descending priority, each function is considered to be of sufficient importance to Agency operations to preclude the deletion of any one function in its entirety; rather, if cuts in personnel and funds are to be required, the Agency medical program would be least impaired by eliminating programs which cut across functional lines, i.e., the dependent medical program.
